

# BREANNA STEWARD

## WEB DEVELOPER

### Profile

Motivated and detail-oriented professional transitioning from a career in customer-driven administration to web development. Currently coming to the completion of an intensive web development boot camp, gaining hands-on experience as a full stack web developer. As a result of my coursework, I have built responsive web applications that have made elements and data engaging to users. Eager to bring a unique perspective and a strong work ethic to a dynamic development team.

## EXPERIENCE

### CAREER FOUNDRY (EDUCATIONAL INSTITUTION)

Student

**October 2022 - Present**

- Created web application using HTML, CSS, and JavaScript that pulls data from a public API and allows a user to view each data point.
- Created REST API with Node.js + Express that allows for movie information to be accessed with titles, directors, genres, and summaries. Database built in MongoDB.
- Built server-side application in REACT using previously created REST API and database.
- Constructed serverless, progressive web application with REACT using test driven development (TDD) to test code in many different facets. Used D3 to build graphs to allow data to be easier to visualize for the user.
- Set up a messaging app in REACT NATIVE allowing users to have a chat screen, share images, and send locations.
- Wrote a second server-side application in Angular with Typescript from created REST API and database that held the movie information.
